

1. fold the A4 sheet - the dashed lines are valleys (folded away from you), the solid lines are hills (folded towards you).
2. Carefully cut the diamonds out (when folded together they become two separate triangles).
3. Place the paper_weight on a pencil at the 'pencil' mark.
4. Place £1 coin on the £1 mark.
5. Place letter gently into the 'letter' mark.
6. If the paper_weight tips up your letter weighs more than 60g and requires more than a normal first class stamp.

letter

If this end lifts the letter requires more than a normal first class stamp

pencil
